

EAST COAST SHIELDING

CONNECTOR GASKETS

East Coast Shielding Connector Gaskets are available die-cut from the listed standard materials. These materials cover all types of applications and configurations.

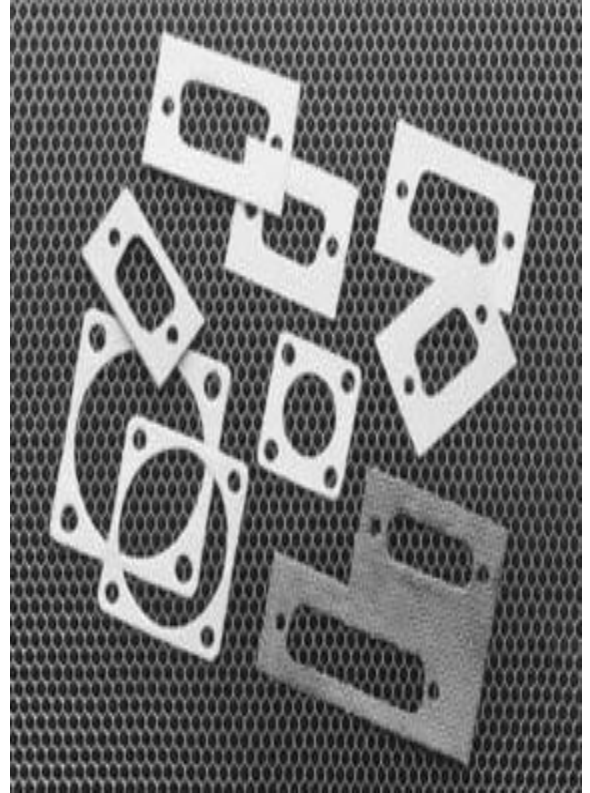

Alumashield Gaskets:

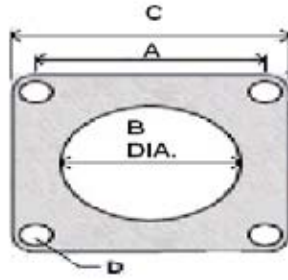

0.020" (0.51) thick silicone or neoprene filled 24 x 24 aluminum screen. Used in applications with joint unevenness up to 0.002" (0.05).

Also available in 0.016" thickness.

150 Series Gaskets:

0.032" (1.57) thick solid silicone with monel wire oriented perpendicular to the gasket surface. Used in applications with joint unevenness up to 0.008" (0.20) which require an environmental or pressure seal. Also available with a pressure sensitive adhesive (PSA) backing.

Standard Gaskets

FOR AN, HT & OWL, MIL-C-5015, MS-3102 CONNECTORS
